NEWS RELEASE

Healthspace Launches New Corporate Website

VANCOUVER, BC – September 12, 2016 - HealthSpace Data Systems Ltd. (the “Company” or “HealthSpace”) is pleased to announce the launch of its new corporate website: www.healthspace.com

Key features of the new site include improved functionality and enhanced rich content focused on the Company’s mission to provide reliable public and environmental health software systems and services. The site offers quick and easy access to essential information and highlights the Company’s new technology suite:

- HSCloud: A fully-customizable cloud-based portal for managing applications, licenses, permits, inspections and other data.
- HSTouch: Allows public health agencies to conduct paperless field inspections from any place, at any time with our intuitive suite of apps for iPad and Android.
- HSData: Offers custom-tailored public and environmental health datasets spanning hundreds of jurisdictions across North America.

“We are excited about our new website launch and the robust information that it provides for customers and viewers alike. We have developed a strong commercial strategy for the deployment of our new environmental health software suite and believe that this new site demonstrates our commitment to providing high quality products and services to our clients,” commented Peter Smyrniotis, Chief Commercialization Officer of the Company.

To view the new site, please visit www.healthspace.com

About Healthspace Data Systems Ltd.

HealthSpace is an industry leader providing inspection, information and communication management systems for federal, state, county and municipal governments. Over the last decade the Company has successfully developed both enterprise and mobile internet-based applications currently serving over 300 state and local government organizations across North America. Clients range in size from small county organizations to state-wide systems with over 910 concurrent users, as well as national programs. HealthSpace specializes in the field of developing, installing, and maintaining inspection and regulatory management systems for environmental and public health organizations.

Forward-Looking Statements

This release may contain forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although HealthSpace believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward looking statements. HealthSpace expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.
