NEWS RELEASE

HealthSpace Announces Renewal of Agreement with Health Canada

VANCOUVER, BC – November 7, 2016 - HealthSpace Data Systems Ltd. (the “Company” or “HealthSpace”) is pleased to announce the renewal of its software and service agreement with Health Canada for a period of one year, worth \$168,000. The agreement includes an option to extend an additional two years. If the extension occurs the agreement will exceed a total of \$500,000.

Healthspace will be responsible for providing data collection systems to track environmental conditions on First Nations communities across Canada and in the far north. The company will also provide tracking software for the First Nations Health Authority in British Columbia.

“We are honoured that Health Canada has entrusted our company to work with them and the First Nations community and believe that our software will enhance their efficiency and quality of work,” commented Joseph Willmott, President of the Company.

About HealthSpace Data Systems Ltd.

HealthSpace is an industry leader providing inspection, information and communication management systems for federal, state, county and municipal governments. Over the last decade the Company has successfully developed both enterprise and mobile internet-based applications currently serving over 300 state and local government organizations across North America. Clients range in size from small county organizations to state-wide systems with over 910 concurrent users, as well as national programs. HealthSpace specializes in the field of developing, installing, and maintaining inspection and regulatory management systems for environmental and public health organizations.

Forward-Looking Statements

This release may contain forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although HealthSpace believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward looking statements. HealthSpace expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.
