News Release

HealthSpace to Provide CS Pro for Private Auditors in New York City and Los Angeles

Vancouver, BC – April 26, 2018 - HealthSpace Data Systems Ltd. (the “Company” or “HealthSpace”) (CSE: HS) (Frankfurt: 38H) (OTC: HDSLFL) announced that Safe and Sound Food Safety Consultants, providing audit services to nationally known food service facilities across New York City and Los Angeles, has purchased the HS Cloud and HSTouch components of the HealthSpace CS Pro suite to manage and inspect food service establishments. This will allow Safe and Sound to more efficiently track violations and data for their clients, while staying on top of what matters most: food safety.

This contract constitutes the first major auditor to begin using HS CS Pro in the private sector space for third party audits. Safe and Sound Food Safety Consultants is a full-service consultancy based in Los Angeles with 30 years’ experience in food service management. A Safe and Sound company spokesperson stated, “We are incredibly excited about this product as it is the first of its kind we have found in the marketplace.”

Mary FitzGerald, the Founder and Principal of Safe & Sound Food Safety Consultants, has worked in the restaurant service industry as a certified trainer, food safety expert and has even served as the General Manager of a 5-floor restaurant in mid-town Manhattan. Mary has worked with restaurants across the spectrum, from small family owned operations to large multinational fast food organizations. Most recently, Mary was contracted by Ecosure, a division of Ecolab (NYSE: ECL), to audit all Starbucks (NASDAQ: SBUX) in New York City, as well as Hilton Hotels (NYSE: HLT), TGI Friday’s (NYSE: TGI) and McDonalds (NYSE: MCD).

Private auditors play a vital role in maintaining food safety and brand protection for food service facilities across North America. However, software management systems in the market today do not adequately facilitate auditors and their needs. HS CS Pro truly is unique having been designed for government, and tailored for the private sector, it is perfectly positioned to gain vast traction in this market. HealthSpace president, Joseph Willmott stated “Food safety audits and brand protection is a rapidly growing business sector. Public awareness is expanding causing private audits to become a larger and larger portion of the \$900 Billion food service industry in North America.”

About HealthSpace

HealthSpace is an industry leading technology company currently providing inspection, information, communication and data management systems for federal, state, county and municipal governments. Over the last decade, HealthSpace has successfully developed both enterprise and mobile internet-based applications currently serving over 300 state and local government organizations across North America. HealthSpace currently offers the only integrated inspection, administration and analytics product suite across all platforms in North America. Further, HealthSpace now delivers inspection and auditing systems

to private businesses enabling them to gain visibility and predictability into their operations to improve performance and safety. As HealthSpace continues to deliver focused service and innovative solutions to government and business organizations, it is developing advanced blockchain technology to revolutionize service delivery to its core market while expanding into other commercial enterprise verticals.

Forward-Looking Statements

This release may contain forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although HealthSpace believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward looking statements. HealthSpace expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.
