News Release

HealthSpace adds Tarrant County, Texas to its Growing List of Clients

Vancouver, BC – August 9, 2018 - HealthSpace Data Systems Ltd. (the “Company” or “HealthSpace”) (CSE:HS) (Frankfurt:38H) (OTC:HDSLFL) announces that the Company recently signed a contract with the Tarrant County Public Health Environmental Division to replace a 20 year old legacy application.

The Environmental Health division performs over 8,000 regular inspections of local food establishments and swimming pools (e.g. health club pools, hotel/motel pools, spas) and Public Water Parks within Tarrant County covering approximately 32 cities and unincorporated areas. This includes services performed in response to sanitation requests or complaints submitted by the general public.

HealthSpace President, Joseph Willmott stated “We recently completed the deployment of a new HealthSpace CS Pro application for the Tarrant County seat of Fort Worth putting both regulatory departments on the same technology platform. Our success in Fort Worth was instrumental in securing this contract.”

The value of this new contract is \$121,510 USD over the next four years including option years.

About HealthSpace

HealthSpace is an industry leading technology company currently providing inspection, information, communication and data management systems for federal, state, county and municipal governments. Over the last decade, HealthSpace has successfully developed both enterprise and mobile internet-based applications currently serving over 300 state and local government organizations across North America. HealthSpace currently offers the only integrated inspection, administration and analytics product suite across all platforms in North America. Further, HealthSpace now delivers inspection and auditing systems to private businesses enabling them to gain visibility and predictability into their operations to improve performance and safety. As HealthSpace continues to deliver focused service and innovative solutions to government and business organizations, it is developing advanced blockchain technology to revolutionize service delivery to its core market while expanding into other commercial enterprise verticals.

Forward-Looking Statements

This release may contain forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although HealthSpace believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward looking statements. HealthSpace expressly disclaims any intention or obligation to update or

revise any forward-looking statements whether as a result of new information, future events or otherwise.
