News Release

## **Florida State Department of Health Announcement Clarification**

**VANCOUVER, BC – October 31, 2018** - HealthSpace Data Systems Ltd. (the “Company” or “HealthSpace”) (CSE:HS) (Frankfurt:38H) (OTC:HDSLIF), at the request of Investment Industry Regulatory Organization of Canada (IIROC), is providing clarification to its announcement regarding the Florida Department of Health (“DOH”) posting on MyFloridaMarketPlace Vendor Bid System and its intent to award a five year contract to HealthSpace USA Inc., a wholly owned subsidiary of the Company, subject to successful contract negotiations.

The Company wishes to clarify the statement made by its President, Joseph Willmott, that the award is the “largest single contract bid ever issued by an environmental health regulatory body” by stating that this contract, when finalized, will be the largest contract ever signed by the Company in terms of gross dollar amount and the number of users. Part of HealthSpace’s core business is reviewing and responding to all environmental health related proposals issued by regulatory agencies across North America. As a result of its experience in responding to regulatory agency tenders over the past 21 years, this award represents the largest environmental health regulatory agency contract by dollar amount and number of users.

As a point of reference, HealthSpace announced in March 2018 that it signed the largest contract in its history with the Virginia Department of Health valued at \$3.061 million USD over five years with up to 1,000 users.

### **About HealthSpace**

HealthSpace is an industry leading technology company currently providing inspection, information, communication and data management systems for federal, state, county and municipal governments. Over the last decade, HealthSpace has successfully developed both enterprise and mobile internet-based applications currently serving over 300 state and local government organizations across North America. HealthSpace currently offers the only integrated inspection, administration and analytics product suite across all platforms in North America. Further, HealthSpace now delivers inspection and auditing systems to private businesses enabling them to gain visibility and predictability into their operations to improve performance and safety. As HealthSpace continues to deliver focused service and innovative solutions to government and business organizations, it is developing advanced blockchain technology to revolutionize service delivery to its core market while expanding into other commercial enterprise verticals.

### **Forward-Looking Statements**

This release may contain forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words “expects”, “plans”,

"anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although HealthSpace believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward looking statements. HealthSpace expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.
