

## NEWS RELEASE

### **HealthSpace Announces Contract Wins in Two States and Appoints Vice President of Sales & Growth**

**VANCOUVER, BC – January 22, 2019** - HealthSpace Data Systems Ltd. (the “Company” or “HealthSpace”) (CSE:HS) (Frankfurt:38H) (OTC:HDSLF) is pleased to announce it has secured two new accounts with Christian County Health Department of Missouri and Navajo County Health Department of Arizona.

HealthSpace is expanding the reach of its HSCloud CS Pro platform into additional state & local government agencies and building the sales pipeline exponentially in each vertical. To strengthen the growth the Company has promoted Theo Yeung to its Vice President of Sales & Growth. Mr. Yeung has been with the company two years serving as Director of Sales. Prior to Healthspace, Mr. Yeung served as an Account Executive at several leading software companies including SAP and Qlik where he was responsible for delivering more than \$60 million USD in value.

Regarding the appointment, Mr. Yeung stated “I am excited to take on this increased mandate as we grow the sales team at HealthSpace. I am looking forward to connecting our best-in-class technology to improve efficiency and accuracy in government agencies across North America. We are well positioned to help countless counties and states embrace the benefits of the Cloud.”

HealthSpace CEO, Silas Garrison commented “In the US alone, the market for State & Local IT spend is worth more than \$100B annually and we are hitting that inflection point where we are generating significant opportunities across multiple verticals within this market. With such a vast opportunity before us, it requires a smart strategy coupled with a laser focus to ensure we accomplish what we know is possible with our products. We are extremely excited to have Theo take the helm of our entire sales organization and grow it.”

### **HealthSpace Data Systems Ltd.**

HealthSpace is an industry leading technology company currently providing inspection, information, communication and data management systems for federal, state, county and municipal governments. Over the last decade, HealthSpace has successfully developed both enterprise and mobile internet-based applications currently serving over 300 state and local government organizations across North America. HealthSpace currently offers the only integrated inspection, administration and analytics product suite across all platforms in North America. Further, HealthSpace now delivers its government grade technologies to private businesses enabling them to gain visibility and predictability into their own organizations and move from a reactive to a proactive operational status. HealthSpace continues to deliver focused service and innovative solutions to government organizations, while expanding into commercial enterprise verticals to enable new customers with proactive environmental health best practices and policies.

## **Forward-Looking Statements**

This release may contain forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although HealthSpace believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward looking statements. HealthSpace expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.
